

ENGLISH CUCUMBER

FUN FACTS

English Cucumbers, unlike regular cucumbers, are a seedless! They are also the LARGEST cucumber variety! Long and slender in shape, they can grow up to 2 feet long! English cucumbers grow on vines on the ground. They're related to watermelon, zucchini, and pumpkins and have high levels of vitamin C and Fiber. Like other cucumber family members, the English Cucumber is 95% water but it doesn't have the waxy skin. It is also known as the "hot house" or the "burpless" cucumber!
