

California Healthy Kids Survey, 2021-2022

Mt Lassen Charter School

Your school needs you to complete this online survey to help improve school culture and climate. This letter explains the survey, and at the bottom of the page, provides the URL and access instructions.

The purpose of this survey is to obtain information from you about your knowledge, attitudes, and behavior about things that affect learning. You will first answer a question about your current learning situation and then be directed to questions appropriate for that situation (distance learning, hybrid, or on campus).

Your participation is voluntary. It is also very important. The information provided will help guide district and school efforts to promote safety, enhance learning supports, improve student achievement, and reduce health risks that stand as barriers to learning.

- **This is an anonymous survey.** It is designed so that no one can be identified from the data.
- **All questions apply to this school only.**
- **You may skip any questions you do not want to answer.**
